Global Health Survey
Already involved in global health work?
OR
Just curious and want to find out more about global health at C&W?
Please take a survey at http://tinyurl.com/igh-survey
All participants will have a chance to win a small prize.

C&W Global Health Survey
Are you working in global health or just curious to learn more about global health? If so, please take 1-3 minutes to fill out a brief global health landscaping survey.

The survey is being conducted by the recently launched Institute for Global Health at BC Children's Hospital and BC Women's Hospital + Health Centre (IGH-BCCWH). The Institute is a campus-wide initiative supported by the C&W Executive Leadership Table, to create a shared vision for global health across our campus.

The survey aims to:
1. Identify the breadth and range of global health activities across BC Children's Hospital and BC Women's Hospital + Health Centre (C&W) and
2. Identify those across our campus who are not currently involved in global health but have an interest in global health

We encourage all clinicians, nurses and allied health professionals, trainees, and staff to fill out the survey.

Canadian-Himalayan Association for Innovation (CHAI) funds new project in Ladakh, India

Winter Camp for Youth, an initiative led by Health Inc, provides fun, skill-building activities in remote villages when schools are closed due to the cold winter weather. These activities are both traditional (e.g., weaving) and modern (e.g., computer literacy). Ice hockey, however, is the main draw of Winter Camp. Ability Camp, an arm of winter camps, focuses on young people who have a physical or cognitive disability. Campers develop confidence, learn life skills, and improve physical functioning while having a lot of fun.

CHAI is a Canadian charity led by rehabilitation specialists, including UBC & Sunny Hill Health Centre's Alexis Davis, in partnership with HEALTH Inc, a Ladakhi NGO. The charity funds projects that create healthy and inclusive futures for marginalized women, children and youth in Ladakh and Kullu, India.

A Global Initiative for Cervical Cancer Screening from Uganda to British Columbia

This January, the Government of British Columbia announced the launch of a new program to improve access to cervical cancer screening through an at-home self-screening test. This program aims to eliminate the disease through early detection and phase out conventional pap tests, a ground breaking achievement in women's health, aligning with the spirit of International Women's Day on March 8.

Partner Highlight

Martin Chigwele is currently a registered nurse and midwife, serving as a pediatric surgery quality improvement nurse at Kamuzu Central Hospital. Growing up in Malawi, Africa, he directly witnessed challenges and shortcomings within the healthcare system, particularly in underserved regions. As a Pediatric Quality Improvement Nurse, he realized the profound impact he can have on the lives of patients, particularly neonates with congenital wall defects.

"Global surgery, as I perceive it, involves creating a cohesive and efficient environment for surgical practices worldwide, emphasizing equity, sustainability, and collaboration," says Martin. "The aspects that resonate with me the most include the comprehensive and multidisciplinary approach, as well as the focus on overcoming barriers to ensure universal access to surgical care in resource-limited settings."

Martin will be presenting at our upcoming Global Health Conference on April 11th, 2024 as part of Panel 2: Strengthening global surgical care through equitable and sustainable partnerships.

INSTITUTE FOR GLOBAL HEALTH
GLOBAL HEALTH CONFERENCE 2024
GLOBAL SURGERY
ADDRESSING A NEGLECTED HEALTH CRISIS
11 April 2024
2024 Keynote
Salome Maswine
Head of Operating Policy, University of Essex, UK

April 11, 2024 | 9:00 AM - 1:30 PM | Virtual & In-Person, Chan Centre for Family Health Education, BC Children's Hospital

The Global Health Conference is back for our 6th year! The Global Health Conference is an annual event bringing together a community of students, trainees, clinicians, researchers, and faculty from across health professions and disciplines to share knowledge.

We hope that you will join us at for a conversation on "Global Surgery: Addressing a Neglected Health Crisis" with conference co-Chairs Dr. Jan Christlaw and Dr. Faizal Haji. The conference will host a wide range of speakers from around the world, giving us the opportunity to discuss the often-overlooked challenges in global surgical care, addressing issues from care inequalities to the impact of education and training on building surgical capacity, and exploring how these factors specifically affect the care of children and women worldwide.

Calling all Trainees!
Are you conducting research in global health? We are currently accepting submissions to share your work via a 2-minute pre-recorded video at the conference, and your work does not need to be related to surgery. Submissions are due by 11:59 PM PDT on March 26th, 2024.

Learn more and submit your application here.

As part of the conference, we will be hosting an in-person trainee networking event entitled "Global Surgery Roundtable". Trainees will have the opportunity to participate in small group discussions with facilitators to explore the field of global surgery.

Register for the roundtable here.

University of British Columbia
Pediatric Grand Rounds
Solar Powered Oxygen Delivery for Children in Low Income Settings
Date: March 8th 2024
Time: 12:00 - 1:00pm PST/PDT
The Chan Centre for Family Health Centre Education
BC Children's Hospital Research Institute
910 West 28th Avenue, Vancouver BC
Guest Speaker: Dr. Michael Hawkes MD, PhD

March 8, 2024 | 12:00 - 1:00 PM | Virtual & In-Person at the Chan Centre for Family Health Education, BC Children's Hospital

Please join the Institute for Global Health and UBC Department of Pediatrics for a Pediatric Grand Rounds presentation by guest speaker, Dr. Michael Hawkes, on "Solar Powered Oxygen Delivery for Children in Low Income Settings". Dr. Hawkes is currently an Associate Professor in the Division of Infectious Diseases, Department of Pediatrics at BC Children's Hospital.

Everyone is welcome! We would love to see you in-person but if you are unable to attend the Zoom details are provided here.

MIDLIFE WOMEN'S HEALTH RESEARCH:
Unpacking the Science of the Menopausal Journey and its Health Impacts
9th Annual Women's Health Research Symposium

March 8, 2024 | 8:00 AM - 1:00 PM | Virtual (Livestream) & In-Person, Robert H. Lee Alumni Centre on the UBC campus

The 2024 WHRI Symposium will focus on Midlife Women's Health Research, emphasizing the science of the menopausal journey and its health impacts. The event brings together researchers, clinicians, trainees, and other partners in research, and offers a forum for sharing new scientific knowledge, knowledge translation, and cultivating collaborations among those passionate about women's health research. The event will include networking, a poster session, and a separate mentorship and networking event for trainees engaged in women's health research.

Grants & Awards

View the IGH Grant Database for more upcoming funding opportunities!

IGH-BCCWH Global Health Trainee Grant

Due: Accepted on a rolling basis.
Award: \$2,500

Are you a trainee electing in a rural/remote elective in a high-income country (HIC) or a global health elective in a low- or middle-income country (LMIC) in 2024 as part of your clinical training? Does your training focus on health care of neonates, children, adolescents, and/or women?

Applications will be accepted on a rolling basis, but must be received no later than 4 weeks before the elective start date. VIEW ALL DETAILS

Children's Global Care Microgrant

Due: March 31, 2024
Award: up to \$1,000

IGH-BCCWH and the Office of Pediatric Surgical Evaluation and Innovation (OPSEI) are pleased to announce a competitive microgrant in support of humanitarian global care for children. These limited funds will be most useful for clinical teams who are involved in global partnerships in low-resource communities where life-saving and life-changing care is out of reach for children and their families. These funds may be used for essential medicines, supplies, and supports such as patient transportation. Funds may not duplicate existing health services and should not be used for care that is free-of-charge to patients. VIEW ALL DETAILS

Russell G Smith Memorial Travelling Fellowship Grant 2025

Due: April 1, 2024
Award: \$5,000

In honour of the legacy of Im a HIPpy founding Chair, Russell G. Smith, and his passionate support for improving global pediatric health, this grant will be awarded annually to a member of the happy community from an under-resourced global region by way of a travelling fellowship visit to the Happy Lab at BC Children's Hospital. VIEW ALL DETAILS

Rural Global Health Partnership Initiative

Application Due: April 30, 2024
Funding Amount: \$10,000

For projects led by a physician practicing rural medicine in BC and a demonstrated interest in global health; or a medical trainee (resident or medical student) with a demonstrated commitment to practicing rural medicine and interest in global health. The applicant partner(s) may be based in rural underserved communities in BC, other parts of Canada, or internationally.

Projects should create opportunities to foster reciprocal learning in diverse health systems and community contexts that can lead to innovative solutions to healthcare challenges and improved health outcomes, especially for underserved, marginalized, and Indigenous populations. VIEW ALL DETAILS
